**PARAPROFESSIONAL TEST PREPARATION**

***INSTRUCTOR SITE***

---

**Welcome to the Instructor Site for the Paraprofessional Test Preparation Project.**

This initiative is a collaborative effort of the Illinois State Board of Education, the Illinois Community College Board, and representatives from community colleges, the K-12 community, Regional Offices of Education (ROEs), and education unions.

This partnership has focused on the development of test preparation opportunities for paraprofessionals in Illinois. Specifically, a statewide curriculum for preparing individuals for the ETS “Parapro” and ACT WorkKeys assessments has been created. This curriculum will be used during the duration of your course.

*We are very pleased to be able to assist Illinois paraprofessionals in meeting the new federal requirements of the No Child Left Behind Act. Thank you for your role in providing them with a successful preparation experience!*

Please identify your institution/organization in the space provided below:
