This checklist helps to ensure that all institutional requirements are met.

Jurisdiction:

Official GED Testing Center Location

Verify that the proposed Official GED Testing Center will be located at one of the following locations:

- Public high schools operated by jurisdictional school systems or agencies;
- High schools and postsecondary education institutions accredited by the jurisdictional education agency or other jurisdictional agencies responsible for administering the GED Testing Program;

- Military installations overseas or in the United States as approved by the Defense Activity for Non-Traditional Education Support (DANTES);
- Other military installations located in the United States;
- Veterans Administration (VA) hospitals and medical centers, and federal correctional and health installations;
- Jurisdictional correctional facilities that have established a school inside the facility as part of their overall rehabilitation programs; or,
- Other institutions and agencies upon special authorization by the GED Testing Service and the Advisory Committee of the GED Testing Service of the American Council on Education.

Validation of Need for Official GED Testing Center

- The proposed Official GED Testing Center provides service in a geographical region that has no convenient Official GED Testing Center or may address the needs of a specific group (such as adults in correctional institutions) that has limited access or no access to an existing Official GED Testing Center.

I have already explored the feasibility of other options, such as adding a transportation addendum to the contract of an established Official GED Testing Center, before recommending a new Official GED Testing Center. I HAVE DETERMINED THE PROPOSED OFFICIAL TEST CENTER DOES NOT STAND TO BENEFIT FROM, OR HAS A FINANCIAL INTEREST IN THE SUCCESS OF, GED CANDIDATES.

I HAVE DETERMINED THE PROPOSED OFFICIAL TEST CENTER IS NOT AT A PROPRIETARY SCHOOL.
