President Weber,

As President of Assured Healthcare Staffing, I am writing to let you know I support the College of Lake County's initiative to offer a Bachelor of Nursing Science Degree (BSN). It is critical that CLC helps to meet the demand for nurses with bachelor's degrees in Lake County.

The convenience and affordable cost of CLC allows nurses to complete their BSN and meet the demands of the area magnet hospitals. It also is instrumental in increasing the competence of the nurses thus elevating the nursing profession as a whole and allowing Lake County to have some of the best hospitals. It is an effort that will only improve the opportunities here in Lake County and will result in an increase of students at CLC. A win-win for all.

The opportunity for the community college to award the BSN would endorse their commitment to life-long learning and dedication to the community.

Sincerely,
