Baccalaureate Completion Programs at Community Colleges
Fiscal Year 2007

Summary

Thirty nine of 39 districts reported. Seven indicated no baccalaureate agreements. Thirty two indicated agreements were in place. There are agreements with 41 different institutions.

  9   Illinois public universities
16   Illinois private institutions
12   out-of-state institutions
  4   online institutions

The numbers of colleges with agreements at Illinois public universities for on-site or online baccalaureate completion programs:

EIU	7	NIU	7	UIC	1
GSU	3	SIU-C	7	UIS	5
NEIU	1	SIU-E	4	WIU	4

Completion Needs
Seventeen colleges indicated they have specific needs for baccalaureate completion programs.

Colleges listed these specific needs (multiple mentions are noted):

Nursing (4)	Criminal Justice
Education (4)	Dental Hygiene
Special Education (4)	Engineering
Early Childhood Education (3)	Entrepreneurship
Elementary	Fire Science
Secondary	Homeland Security
Bi-lingual education	Social Work
Math & science disciplines	Technology Management

Six colleges indicated they have no requests from students or a lack of need due to proximity to other institutions.

One college indicated it addresses needs as they arise.

Two colleges indicated they do not know if a need exists.

Colleges Indicating Baccalaureate Completion Need

Question: Do the residents of your district have need for a baccalaureate completion program beyond what is currently available to them?

Institution	Needs
Black Hawk	Special Education, Early Childhood Education, Social Work, Engineering
Elgin	Yes, especially education programs.
Harper	Yes, in: Fire Science, Criminal Justice, Homeland Security, Technology Management, Entrepreneurship, Dental Hygiene, Nursing, Specialized teaching - math, science, special education and bi-lingual education
Highland	Yes
Illinois Central	Absolutely!! According to the most recent census our district has an above the national average number of residents with associate degrees but well below the national average in citizens with bachelor's degrees. Also, Caterpillar (a fortune 100 company) most often requires a bachelor's degree for many of their professional positions. Illinois Central College, aside from the agreements mentioned above, has no other State University serving the residents of our district.
Illinois Valley	Yes. We are in the middle of the district and are 50+ miles from any public university. 12% of the adults in our district have a baccalaureate degree. We need much more access.
John A. Logan	There are on-going requests in the Education area.
Kankakee	Yes. Our local hospitals are trying to achieved magnate status and they need a BSN completion program in Kankakee during convenient hours for their ADNs. Currently, KCC is supplying most of the ADNs for these hospitals.
Lewis & Clark	There may be additional specific baccalaureate degrees of interest to the residents of the Lewis and Clark District.

Institution	Needs
Lincoln Land	One area where we see a need is a Bachelors Degree in Education, especially in some specialty areas such as special education. Students cannot receive a degree in education from the local public university (UIS); students can receive a degree in education from a local private university (SCI-Benedictine), but it is expensive and the degree is only in elementary education. There are discussions in the works with another regional, public university regarding a Bachelors degree in education. In addition, we are currently working with UIS to create a partnership with our online programs.
Moraine Valley	We don't have any specific indications that community residents need, but do not have access to, baccalaureate completion programs. Since there are currently none, yes, if the right programs and access were available. This might mean online degree completion agreements.
Parkland	Yes. Although many needs are met through the current offerings, there are still needs from the AAS degree graduates. We are identifying those needs and will fill as programs are available.
Richland	A baccalaureate completion program in Nursing is greatly needed.
Rock Valley	Yes, there are target areas with good employment opportunities and no bachelor completion offerings available to date (early childhood education, special education, secondary education in various areas just to name a few). Note: Rockford College does offer some secondary education options, however, they do not offer early childhood or special education with various specialty areas.
Sauk Valley	Yes, Ashford University from Iowa has requested permission to offer classes on the SVCC campus. Once received, classes will probably start in summer or fall semesters. The number of bachelor degreed students in the SVCC district is approximately half of the state average. While Sauk has several online opportunities for students, many students prefer a traditional classroom approach for their education.
Shawnee	Yes. We are currently working to develop additional agreements to provide programs in the areas of early childhood and elementary education.
Southeastern	Additional opportunities for district residents to earn bachelor degrees and graduate degrees online and in a traditional format are needed. Examples of content areas include nursing and education.
