INTRODUCTION

Recognition is a statutory term describing the status of a district which meets instructional, administrative, financial, facility, and equipment standards as established by the Illinois Community College Board (ICCB) (Section 805/2-12f and 805/2-15). Community colleges must be recognized to be eligible for state funding. Based on a five-year cycle, ICCB staff conducts recognition evaluations to assure that colleges are in compliance with these standards. All colleges are evaluated on a select number of standards during the same five-year cycle.

ICCB staff makes an assessment on each individual standard and on a holistic basis. On individual standards, colleges are identified as either in compliance or not in compliance. Recommendations are either mandatory when a college is out of compliance or otherwise advisory. On an overall basis, there are three categories of recognition status:

Recognition Continued - The district generally meets ICCB standards.

Recognition Continued - with Conditions - The district generally does not meet ICCB standards.

Recognition Interrupted - The district fails to take corrective action to resolve the conditions placed upon it under “recognition continued-with conditions” within a prescribed time period.

Standards identified for focused review during the 2021 - 2025 cycle will be selected from the following broad categories:

- I. Academic
- II. Student Services/Academic Support
- III. Finance/Facilities
- IV. Institutional Research/Reporting

Version updates to this manual will be implemented if any changes occur to the Administrative Code by the State of Illinois Joint Committee on Administrative Rules

Version 1.1

OBJECTIVES OF THE RECOGNITION EVALUATION

The following are the objectives of the ICCB recognition evaluation process:

1. To determine district compliance with standards established by the [Public Community College Act](#) and [ICCB System Rules Manual](#) available on the ICCB [website](#).
2. To provide assistance to districts in achieving compliance with the Act and Administrative Rules.
3. To identify issues that may be of concern to the community college system and to gather basic data about these issues.
4. To identify exemplary district practices/programs that can be shared with other districts.

THE RECOGNITION PROCESS

The recognition process takes advantage of the substantial amounts of information that the colleges provide to the Board on a routine basis. Evaluations include quality indicators, in addition to standards that are strictly compliance oriented. If issues arise during the ICCB staff's office evaluation that cannot be resolved through off-site contact with the college, a visit to the college concurrent with the credit hour claims audit visit will be arranged to view materials available on campus and/or to discuss issues with college personnel. The ICCB may, in some instances, conduct on-site visits, as deemed appropriate and necessary.

Application

Each district is required to submit an application for recognition in accordance with the provisions of Section 2-15 of the Act. The application should include a letter from the local board of trustees (or designee) requesting the ICCB to assign a status of "recognition continued" to the district. The application letter should be received within 90 days after official notification from the Illinois Community College Board. See Appendix D for full instructions on the application process.

Scope

Each recognition evaluation will focus on the standards identified in Appendix C. These selected standards will be the central focus of (1) the district's self-evaluation submitted as a part of the application for recognition and (2) the ICCB evaluation. While the focus of the recognition evaluation will be on selected standards, the district is responsible for compliance with all ICCB standards. Standards other than those selected for focus may be addressed by ICCB staff during the recognition evaluation or at other times during the year.

Provisions

On an overall basis, there are three categories of recognition status:

Recognition Continued - The district generally meets ICCB standards. A district which has been granted a status of "recognition continued" will be entitled to receive ICCB

grants for which it is otherwise entitled and eligible.

Recognition Continued-with Conditions - The district does not meet ICCB standards across one or more identified standards. A district which has been assigned the status of “recognition continued-with conditions” will be entitled to receive ICCB grants for which it is otherwise entitled and eligible, but it will be given a specified time to resolve the conditions which led to the assignment of that status. A follow-up visit evaluation will be scheduled no sooner than three nor later than nine months after ICCB action on the assignment to determine the district’s progress in resolving the conditions.

Recognition Interrupted - The district failed to take corrective action to resolve the conditions placed upon it under “Recognition Continued-with Conditions” within the prescribed time period. A district which has been assigned a status of “Recognition Interrupted” may apply for recognition at such time as all requirements set forth by the ICCB have been satisfied. A district on “Recognition Interrupted” status will have state funding suspended on a prorated, per diem basis for the period of time for which such status is in effect.

Action

Recognition is considered to be continuous unless action is taken to interrupt it. The ICCB will act on the recognition status of each district at a meeting subsequent to the ICCB recognition report being received. A district which previously has not been granted a recognition status by the ICCB may apply for a recognition status at any time.

Evaluation

ICCB staff will conduct an in-depth evaluation of each district at least once every five years (See Appendix B for the 2021-2025 schedule).

- 1) This evaluation will be conducted by ICCB staff based on internal ICCB documents and on requests for information, data, and documents from the college.
- 2) On-site visits, including a required credit hour claims audit visit, will be scheduled.
- 3) The district shall receive a draft report of the evaluation findings and is asked to respond to the findings within 30 days of receipt of the draft report.
- 4) A final report will be presented to the ICCB at its next regularly scheduled meeting and will include the district’s responses to the draft report’s findings. Accompanying the final report will be the staff’s recommendation for recognition.
- 5) There may also be recommendations for follow-up submission required by the college, based on the finding in the final report.

Review and Appeal

The ICCB may place a district on a “Recognition Interrupted” status for failure to meet ICCB standards after being assigned a status of “Recognition Continued-with Conditions” and receiving a follow-up evaluation if the district has not resolved the conditions within the stated time allowed. Any district whose recognition is interrupted may file a written request with the ICCB for a hearing on the decision in accordance with ICCB Rule 1501.110.

APPENDIX A

Applicable Statutes - Recognition

Sections 2-12 and 2-15 of the Public Community College Act provide the bases for recognition: 2-12. The State Board shall have the power and it shall be its duty:

2-12f. To determine efficient and adequate standards for community colleges for the physical plant, heating, lighting, ventilation, sanitation, safety, equipment and supplies, instruction and teaching, curriculum, library, operation, maintenance, administration and supervision, and to grant recognition certificates to community colleges meeting such standards.

2-12g. To determine the standards for establishment of community colleges and the proper location of the site in relation to existing institutions of higher education offering academic, occupational and technical training curricula, possible enrollment, assessed valuation, industrial, business, agricultural, and other conditions reflecting educational needs in the area to be served; however, no community college may be considered as being recognized nor may the establishment of any community college be authorized in any district which shall be deemed inadequate for the maintenance, in accordance with the desirable standards thus determined, of a community college offering the basic subjects of general education and suitable vocational and semiprofessional and technical curricula.

2-15. The State Board shall grant recognition to community colleges which maintain equipment, courses of study, standards of scholarship, and other requirements set by the State Board. Application for recognition shall be made to the State Board. The State Board shall set the criteria by which the community colleges shall be judged and through the executive officer of the State Board shall arrange for an official evaluation of the community colleges and shall grant recognition of such community colleges as may meet the required standards.
